## Miracle Detox Program

The Miracles Detox at Southern California Hospital at Culver City is hospital-based, short-term treatment program for chemical dependency detoxication designed to meet the specific treatment needs of each patient. Its purpose is to help those in need painlessly and productively begin their journey to recovery.

## Treatment Options

Miracles Detox uses an integrated treatment approach to provide the highest quality of care. Our treatment team includes addiction medicine physicians, psychiatrists, registered nurses, certified alcohol/drug abuse counselors (CADC-II) and dietician. Miracles is supported by our hospital's onsite 24-hour emergency, laboratory and pharmacy services. Our program is strictly confidential and most insurance is accepted.

### **Our 3 to 7 day treatment program includes:**

- Twelve Steps and Twelve Traditions recovery model
- Individual assessments, education groups and continuum of care services
- Dual-diagnosis management
- Weekly AA, NA, CA panels

## Intensive Outpatient Program

In addition to detoxification, we offer an evidence-based intensive outpatient program (IOP) at Southern California Hospital at Culver City for clients 18 years of age and older. The program provides a safe and structured environment as a step-down from partial hospitalization or as an alternative to inpatient treatment for psychiatric and addiction issues. The IOP is open Monday through Friday, 10 a.m.-2 p.m.

## **Southern California Behavioral Health Network**

We know that wellness is more than just physical well-being. Our top priority is providing solutions to mental and emotional health needs, as well as addiction. Miracles Detox is part of one of the largest mental health providers in Southern California, offering a full continuum of behavioral health services and treatments—from family and individual counseling to inpatient care.

Using an integrative health approach, our behavioral health network includes more than 160 beds in Culver City, Bellflower and Van Nuys.
